In the Claims:

Please amend claims 1, 9, and 16 as follows:

1. (amended) A steer-by-wire steering system for steering one or more road wheels on a  
vehicle, said steering system comprising:

a steering input device rotatable by an operator to command steering of the one or more  
road wheels;

a steering input shaft mechanically connected to the steering input device and rotatable in  
response to rotation of the steering input device, wherein the steering input shaft is not  
mechanically linked to the steered one or more road wheels;

a support member disposed proximate the steering input shaft;

a male member provided on one of the steering input shaft and the support member;
